

HEAR AND LEARN VSBA BUNDLE 4

UCONNECT SOUNDBOUSE HEARING AUGMENTATION SOLUTION

HEARING AUGMENTATION AND SOUNDFIELD ADD-ON TO TV / SCREEN / PROJECTOR / PERFORMANCE / MUSIC SYSTEM BY OTHERS

VICTORIAN SCHOOL BUILDING AUTHORITY'S (VSBA) BUILDING QUALITY STANDARDS HANDBOOK (BQSH) 2024 REGULATES HEARING AUGMENTATION AND SOUNDFIELD TECHNOLOGY.

ALL HEAR AND LEARN UCONNECT SOLUTIONS CAN BE SUPPORTED BY SITE SPECIFIC REPORTS DEMONSTRATING COMPLIANCE WITH CODE.

- UConnect Mini and SoundHouse are devoted onwall interface transmitters (to personal hearing devices or receivers) that are safely mounted and connected to UConnect Solutions.
- The agility of UConnect means any brand transmitter using any other transmission technology can be connected. This means no waste, redundancy or overspend.
- BQSH requires the supply of portable soundfield. Hear and Learn supplies Redcat Soundfield and PowerPlate for easy and safe install.
- Hear and Learn soundfield is permanent as required by BQSH, in multipurpose areas, libraries and rooms designated for use by students who are hard of hearing, deaf, or english is their second language.
- Hear and Learn supplies transmitters suitable to the student population at the rate of one set per ten learning spaces / learning community.
- Hearing augmentation is achieved natively with UConnect Solutions meaning learners don't need to carry or wear any additional technology.
- All other compliance conditions are met by Hear and Learn's UConnect products.

SUGGESTED SPECIFICATION WORDING:

"HEAR AND LEARN SOUNDBOUSE COMPLETE WITH BRAILLE TACTILE SIGN, TRANSMITTERTRAY AND ALL ASSOCIATED ELECTRONICS, POWER SUPPLIES AND GPO'S, AND PERMANENT TRANSMITTERS TO SUIT THE STUDENT, VISITOR AND TEACHER POPULATION."

SUGGESTED SPECIFICATION ARTWORK FOR UCONNECT SOUNDBOUSE

① SoundHouse Onwall Interface

Hear and Learn UConnect SoundHouse is a high quality, devoted onwall interface that receives voice, music and screen audio from performance/music system by others complete with permanent transmitters. Steel construction with securable polycarbonate TransmitterTray free from trip risk with no unsecured cables to power supplies or general power outlets.

② TV/Screen/Projector/ Performance/Music System (by Others)

TV/screen/projector for augmentation to receivers in aids. If the length of cable from the output of TV/screen/projector to UConnect SoundHouse is more than 10m, use CAT5E/6 cable with 3.5mm stereo audio CAT5E/6 extenders at each end for connection to UConnect SoundHouse (via 3.5mm male plug) and to TV/screen/projector (to suit output of device).

FOR AREAS LARGER THAN A BASKETBALL COURT, A SECOND SOUNDBOUSE MAYBE REQUIRED.

CONSULT HEAR AND LEARN FOR ASSISTANCE.

③ TransmitterTray with SecureSlide

TransmitterTray houses various transmitters to receivers in hearing aids supplied to Australian learners. SecureSlide allows for full security of transmitters and ligature-free usage.

④ Hearing Sign

Braille Tactile Hearing Augmentation signage supplied

CONNECT TO ALL AIDS

Connect to all aids supplied to hearing impaired learners, teachers and visitors via current generation transmitters. Communal transmitter bundles included with UConnect Mini installations at the rate of 1 bundle per 10 rooms / buildings.

Hear And Learn's UConnect Hearing Augmentation Range is built on its All Ears Policy.
