

SoundHouse by Hear and Learn embraced in State Victorian New Build

CHURCHILL NORTH PRIMARY SCHOOL, VICTORIA

CHURCHILL NORTH PRIMARY SCHOOL IN GIPPSLAND VICTORIA HAS RECENTLY HAD CONSTRUCTED 8 NEW LEARNING SPACES.

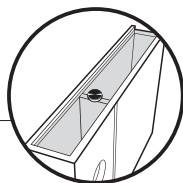

Consistent with VSBA Regs, a performance-based approach to compliance with the Building Construction Code was adopted which meant the Hear and Learn UConnect platform was chosen over all others.

Educator Linda Macgregor received a lovely surprise when learning that her new equipment was from Hear and Learn. "I spent many years at Morwell Central and love the Flexmike to capture teacher voice and deliver auditory equity to all learners".

SoundHouse Interior View. Secure space for storing personal items and for charging microphones and devices.

Phantom Electrical proved best-of-breed service while installing these SoundHouse's and respected law and research attached to the work of Hear and Learn.

The SecureSlide System. Provides security and tamper proofing for transmitters to receivers in hearing aids.
