

At Mary MacKillop Primary in Narre Warren, Melbourne, teachers use the Hear and Learn [Flexcat system](#). Teachers Tamara and Margaret explain;

“We are using the Flex Cat (clarity and amplifying aid) in our classroom everyday. We use it to run and manage Literacy groups and independent learning times. It is beneficial because we can monitor and check the progress of students at any time and they can communicate with us without having to wander around the room or wait in a line. It also allows us to listen into their conversations (that can be interesting) checking to see if they are on task or need further prompts and assistance.”
